MEMORANDUM FOR Federal Metric Coordinators and Previous
Metric Seminar Attendees

From: Jeffrey V. Odom
Metric Coordinator
Office of Weights and Measures

A handwritten signature in cursive script, reading "Jeffrey V. Odom".

Subject: Metric Training Seminar

Attached is a flyer for the next Metric Training Seminar to be held at the National Bureau of Standards in September. At least twenty-five persons must be enrolled to enable the class to be held. Dependent upon response, this may be the last seminar in this series. If you are aware of any persons in your agency that should have this type of training, please be sure they are properly informed.

SPECIAL ANNOUNCEMENT

NATIONAL BUREAU OF STANDARDS METRIC TRAINING SEMINAR

The National Bureau of Standards' Office of Weights and Measures is sponsoring a series of metric training seminars for persons needing a working knowledge of the metric system and techniques for metric conversion in their jobs. These seminars feature a workshop, "hands on" approach, and have been enthusiastically received as an ideal way to get a working knowledge of metric.

The next seminar will be held at the National Bureau of Standards, Gaithersburg campus on September 14-16, 1977. The cost for the course will be \$100. A course outline is given below.

The course will be open to all Federal, State and local government employees, as well as persons from weights and measures related industries, on a space-available basis. Registrations are limited to 30 per session. Registrations for the next course should be received by August 29, 1977.

SEMINAR OUTLINE
